CLASSROOM CONTACT ADVICE

The Chief Public Health Officer advises it's good practice for classroom contacts to do the following to minimise risk to others, when outside of the school, preschool or early childhood education and care setting:

- avoiding high risk settings or COVID Management Plan events
- wearing a surgical mask around others (where age appropriate) and outside your home

- avoid working across worksites unless an approved risk management plan is in place (eg rapid antigen testing)
- avoiding contact with vulnerable people outside of your workplace or family, where possible
- avoiding non-essential activities where possible (eg where there are lots of people, inside, in close contact)
- avoiding shared spaces and maintain physical distance.
